## RESENTACIÓN

### DREM MOQUEGUA

La Dirección Regional de Energía y Minas de Moquegua – DREM.M, a través del Área de Hidrocarburos, en cumplimiento de las funciones ha elaborado el ANUARIO ESTADISTICO REGIONAL DE HIDROCARBUROS 2014, con la finalidad de suministrar a los sectores gubernamentales y privados información estadística relacionada con las actividades de hidrocarburos en la Región Moquegua, para que se sirva de apoyo en la toma de decisiones oportunas y confiables.

El Anuario Estadístico Regional de Hidrocarburos 2014, presenta los Volúmenes de Combustibles Líquidos Comercializados en Estaciones de Servicios y Grifos que operan en la Región Moquegua, la variación del volumen de comercialización del año 2014 respecto al año 2013, los establecimientos registrados (autorizados) para desarrollar actividades de Hidrocarburos en la Región; el promedio mensual de los precios de los combustibles, la estructura de precios a nivel nacional, producción nacional y reservas de hidrocarburos, las normas legales del Subsector Hidrocarburos.

El Área de Hidrocarburos agradece a los operadores de los establecimientos de venta al público de combustible, por la presentación de la información estadística, que ha permitido la presente publicación.

Moquegua, Junio de 2014

## COMERCIALIZACIÓN DE COMBUSTIBLES

### DIESEL B5

A partir del 01 Enero 2011 se inició la comercialización de este combustible, en reemplazo del Diesel B2.

El Diesel B5 es un combustible constituido por una mezcla de Diesel N°2 y 5% en volumen de Biodiesel (B100).

- Diesel N°2.- Combustible derivado de hidrocarburos, destilado medio, obtenido de procesos de refinación.
- Biodiesel (B100).- Combustible diesel derivado de recursos renovables, puede ser obtenido a partir de aceites vegetales o grasas animales. Cumple con las especificaciones de calidad establecidas en la norma nacional e internacional. Este combustible prácticamente no contiene azufre.

Es importante resaltar que, de conformidad a la legislación nacional vigente, se estableció un cronograma para el uso obligatorio de mezclas del Diesel N°2 con el Biodiesel B100:

Desde el 01.01.2009: Diesel B2 (mezcla de Diesel N°2 + 2% de Biodiesel B100)

Desde el 01.01.2011: Diesel B5 (mezcla de Diesel N°2 + 5% de Biodiesel B100)

El DIESEL B5 PETROPERÚ, con denominación comercial en nuestro caso de BIO DIESEL B5 PETROPERÚ, cumple con las especificaciones técnicas de la norma técnica peruana vigente y guarda concordancia con los principales ensayos de los estándares internacionales ASTM, D975 y SAE J313.

#### Características técnicas

- Elevado índice de cetano con respecto a la especificación, que asegura una excelente calidad de ignición, arranque rápido y menor ruido del motor.
- Bajo contenido de azufre con respecto a la especificación, asegurando una protección efectiva contra el desgaste. La especificación vigente exigida para el Diesel B5 es de máximo 5000 ppm.
- Excelente lubricidad y reducción de emisiones contaminantes (al incrementarse el porcentaje de biodiesel de 2 a 5%).
- Elevado poder calorífico, que garantiza una eficiente combustión.

## LAS GASOLINAS

La gasolina es una mezcla de muchos hidrocarburos que están en el rango aproximado de C5 (hidrocarburos con cinco átomos de carbono) a C11 (hidrocarburos con once átomos de carbono). En las refinerías se obtienen por separación de fracciones relativamente volátiles durante el proceso de destilación primaria de petróleo crudo y de procesos complejos de refinación, como el craqueo catalítico.

La gasolina está diseñada para uso en motores de ignición por chispa y de combustión interna.

Las gasolinas Petroperú están formuladas con aditivos multifuncionales de última generación que elevan la estabilidad del combustible e incrementa la vida útil del motor, permitiendo el máximo rendimiento.

Petroperú, empresa líder en el sector hidrocarburos, produce y comercializa en el mercado nacional las siguientes gasolinas, a las cuales se agregan colorantes para diferenciar su octanaje:

- Gasolina Petroperú Super Plus 97 (sin plomo)
- Gasolina Petroperú Super Plus 95 (sin plomo)
- Gasolina Petroperú Super Plus 90 (sin plomo)
- Gasolina Petroperú Super Plus 84 (sin plomo)

Las gasolinas cumplen con la norma técnica peruana vigente y guardan concordancia con los estándares internacionales American Society for Testing and materials (ASTM) D-4814 y Society of Automotive Engineers (SAE) J-312.

Las gasolinas tienen un aspecto transparente, de gran potencia por el excelente poder calorífico, y una volatilidad cuidadosamente balanceada, que permite un mejor encendido del motor.

Los octanajes son usados según el requerimiento de cada vehículo, para evitar el molesto pistoneo del motor.

Poseen mínimo contenido de azufre y gomas, para evitar problemas de corrosión y depósitos en el sistema de combustible y partes del motor, prolongando la vida útil de éste.

Los aditivos de última generación proporcionan cualidades de detergentes, anticorrosivos y disertantes, manteniendo limpio todo el sistema de combustible del motor. Esto supone un ahorro económico por mantenimiento.

Estos aditivos de elevada eficiencia contribuyen a proteger el medio ambiente al reducir la emisión de gases contaminantes e hidrocarburos no quemados.

**CUADRO N° 03. REGIÓN MOQUEGUA: VOLUMEN COMERCIALIZADO DE GASOLINA DE 84 OCTANOS  
SEGUN ESTACIONES DE SERVICIOS Y GRIFOS: 2014

## GAS LICUADO DE PETROLEO (GLP)

El gas licuado de petróleo (GLP) es una mezcla balanceada de hidrocarburos volátiles tipo propano y butano.

Petroperú obtiene el GLP de la destilación del petróleo crudo, en Refinería de Talara, cumpliendo con las especificaciones de calidad de la Norma Técnica Peruana en concordancia con el estándar internacional American Society for Testing and Materials (ASTM) D 1835.

### Características técnicas

- Se almacena y transporta en estado líquido, manteniéndolo bajo presión en los tanques.
- Permanece en estado gaseoso a temperatura normal y presión atmosférica.
- No tiene color; es transparente en su estado líquido.
- No tiene olor; se le agrega una sustancia de olor penetrante para detectarlo en caso de fuga.
- Es muy inflamable. Cuando se escapa y se vaporiza se enciende violentamente con una pequeña llama o chispa.
- Presenta combustión limpia y eficiente. Se quema sin formación de humos, hollín o cenizas, por lo que ocasiona reducidas emisiones tóxicas al medio ambiente.
- Elevado poder calorífico por unidad de peso y volumen, al estar constituido por una mezcla balanceada de hidrocarburos propano y butano.
- Mínimo contenido de azufre.
- Máxima economía por ahorro en combustible y mantenimiento.
- Octanaje elevado (octanaje *research*) superior a 100, evitando así el molesto "pistoneo" del motor.
- Permite una mayor duración del aceite lubricante.
- Protege la vida útil del motor.

### Usos

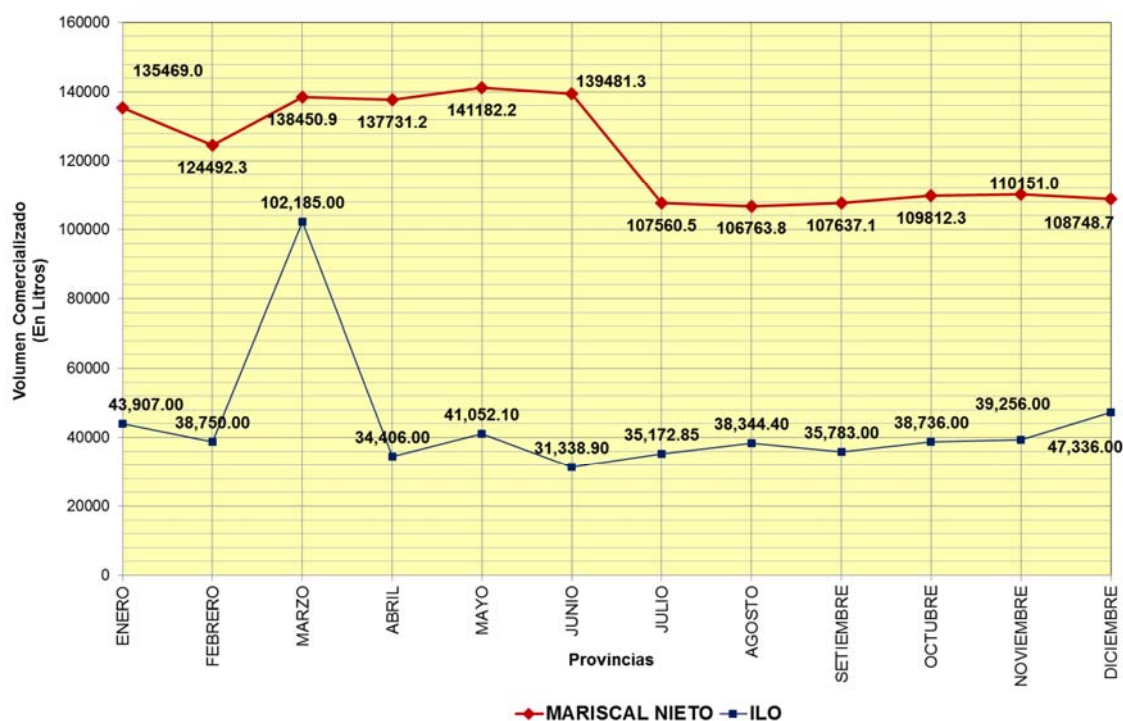

- Doméstico: cocinas, termas, calefacción.
- Industrial: hornos, calderos, generación eléctrica.
- Automotriz: automóviles, tractores, ómnibus y camiones. Vehículos de transporte de mediana y larga distancia, de transporte urbano, gasolineros convertidos a GLP y sistema dual gasolina-GLP.

## NORMAS

### FINALIDAD DE LA REGULACION EN HIDROCARBUROS

- Determinar derechos y obligaciones de todos los agentes en la cadena de valor de los combustibles.
- Brindar mecanismos para asegurar el abastecimiento interno.
- Establecer requisitos racionales para la formalización de los agentes.

### Ley Orgánica de Hidrocarburos – Ley N° 26221

**Artículo 2°.-** El estado promueve el desarrollo de las actividades de Hidrocarburos sobre la base de la libre competencia y el libre acceso a la actividad económica con la finalidad de lograr el bienestar de la persona humana y el desarrollo nacional.

**Artículo 76°.-** El transporte, la distribución mayorista y minorista y la comercialización de los productos derivados de los Hidrocarburos se regirán por las normas que apruebe el Ministerio de Energía y Minas; dichas normas deberán contener mecanismos que satisfagan el abastecimiento del mercado interno.

### LEGISLACION RELACIONADA AL MERCADO DE HIDROCARBUROS

#### EXPLOTACION Y EXPLOTACION

- Reglamento de las Actividades de Exploración y Explotación de Hidrocarburos, aprobado por el Decreto Supremo N° 032-2004-EM.
- Reglamento de Seguridad para las Actividades de Hidrocarburos, aprobado por Decreto Supremo N° 043-2007-EM.

**COMBUSTIBLES LIQUIDOS**

- Reglamento para la Comercialización de Combustibles Líquidos y Otros Productos Derivados de los Hidrocarburos, aprobado por Decreto Supremo N° 030-98-EM.

**COMBUSTIBLES LIQUIDOS**

- Reglamento para la comercialización de Combustibles Líquidos y Otros Productos Derivados de los Hidrocarburos, aprobado por Decreto Supremo N° 045-2011-EM.
- Reglamento de Normas para la Refinación y Procedimiento de Hidrocarburos, aprobado por el Decreto Supremo N° 051-93-EM.
- Reglamento de Seguridad para el Almacenamiento de Hidrocarburos, aprobado por el Decreto Supremo N° 052-93-EM
- Reglamento de Seguridad para el Transporte de Hidrocarburos, aprobado por Decreto Supremo N 026-94-EM.

**BIOCOMBUSTIBLES**

- Reglamento para la Comercialización de Biocombustibles, aprobado por Decreto Supremo N° 021-2007-EM.

**GAS LICUADO DE PETROLEO**

- Reglamento para la Comercialización de Gas Licuado de Petróleo, aprobado por Decreto Supremo N° 01-94-EM.
- Reglamento de seguridad para Instalaciones y Transporte de Gas Licuado de Petróleo, aprobado por Decreto Supremo N° 027-94-EM.

**GAS NATURAL**

- Reglamento para el Transporte de Hidrocarburos por Ductos, aprobado por Decreto Supremo N° 081-2007-EM.
- Reglamento de Distribución de Gas Natural por Red de ductos, aprobado por Decreto Supremo N° 040-2008-EM.

**NORMAS CORRESPONDIENTES AL AÑO 2014**

| <b>NORMA</b>                              | <b>DESCRIPCIÓN</b>                                                                                                                                                                                                                                               | <b>FECHA</b> |
|-------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------|
| Decreto Supremo N° 046-2014-EM            | Modifican el Reglamento de Comercialización de Gas natural Comprimido (GNC) y Gas Natural Licuefactado (GNL) aprobado por Decreto Supremo N° 057-2008-EM                                                                                                         | 24/12/2014   |
| Resolución Ministerial N° 536-2014-MEM/DM | Aprueban Inventario Inicial de Pasivos Ambiental del Subsector Hidrocarburos                                                                                                                                                                                     | 19/12/2014   |
| Decreto Supremo N° 039-2014-EM            | Aprueban Reglamento para la Protección Ambiental en las Actividades de Hidrocarburos.                                                                                                                                                                            | 12/11/2014   |
| Decreto Supremo N° 037-2014-EM            | Modifican e incorporan artículos al Reglamento de Comercialización de Gas Natural Comprimido (GNC) y Gas Natural Licuefactado (GNL), aprobado por Decreto Supremo N° 057-2008-EM.                                                                                | 06/11/2014   |
| Resolución Directoral N° 151-2014-MEM/DGH | Modifican R.D. N° 122-2006-EM/DGH mediante la cual se establecieron los Lineamientos para la determinación de los Precios de Referencia de los combustibles derivados del petróleo.                                                                              | 06/11/2014   |
| Decreto Supremo N° 081-2014-EM            | Modificación del reglamento de la Ley N° 29852, que crea el Sistema de Seguridad Energética en Hidrocarburos y el Fondo de Inclusión Social Energético, aprobado mediante Decreto Supremo N° 021-2012-EM.                                                        | 05/11/2014   |
| Decreto Supremo N° 080-2014-EM            | Modifican el Reglamento para la Comercialización de Gas Licuado de Petróleo, aprobado por Decreto Supremo N° 01-94-EM, el Glosario, Siglas y Abreviaturas del Subsector Hidrocarburos, aprobado por Decreto Supremo N° 032-2002-EM y emiten otras disposiciones. | 05/11/2014   |
| Decreto Supremo N° 079-2014-EM            | Aceptan la renuncia a la Concesión de Transporte de Gas Natural por Ductos de Camisea al Sur del País.                                                                                                                                                           | 05/11/2014   |
| Resolución Directoral N° 141-2014-MEM/DGH | Modifican R.D. N° 122-2006-EM/DGH mediante la cual se establecieron los "Lineamientos para la determinación de los Precios de Referencia de los combustibles derivados del petróleo".                                                                            | 21/10/2014   |
| Decreto Supremo N° 031-2014-EM            | Modifican el Reglamento de Seguridad par Instalaciones y Transporte de Gas Licuado de Petróleo, aprobado por Decreto Supremo N° 027-94-EM                                                                                                                        | 21/09/2014   |
| Resolución Ministerial N° 595-2014-MEM/DM | Autorizan al Director General de Hidrocarburos a suscribir Convenio de Estabilidad Jurídica a celebrarse con Natural Fenosa Perú S.A.                                                                                                                            | 03/09/2014   |
| Decreto Supremo N° 025-2014-EM            | Prorrogan plazo establecido en la Segunda Disposición Transitoria del Reglamento del Mercado secundario de Gas Natural, aprobado mediante D.S. N° 046-2010-EM.                                                                                                   | 05/08/2014   |
| Resolución Ministerial N° 337-2014-MEM/DM | Aprueban Directiva que establece los Lineamientos del "Procedimiento para la Evaluación de Solicitudes de Parte Concurrentes" para el otorgamiento de la Concesión del Servicio de Distribución de Gas Natural por Red de Ductos.                                | 26/07/2014   |
| Decreto Supremo N° 022-2014-EM            | Disponen reinscripción en el Registro de Hidrocarburos de Consumidores Directos ubicados en el departamento de Madre de Dios.                                                                                                                                    | 11/07/2014   |

| NORMA                          | DESCRIPCIÓN                                                                                                                              | FECHA      |
|--------------------------------|------------------------------------------------------------------------------------------------------------------------------------------|------------|
| Decreto Supremo N° 015-2014-EM | Modifican e incorporan Normas de Comercialización y Seguridad de Combustibles Líquidos y otros productos derivados de los hidrocarburos. | 09/05/2014 |
| R.M. N° 092-2014-MEM/DM        | Aprueban disposiciones específicas para los Estudios de Impacto Ambiental Detallados del sector Energía y Minas.                         | 27/02/2014 |
| Decreto Supremo N° 005-2014-EM | Aprueban el reglamento de la Ley N° 29970 en lo referido al Sistema Integrado de Transporte de Hidrocarburos.                            | 07/02/2014 |
| R.M. N° 013-2014-MEM/DM        | Aprueban matriz de Indicadores de Desempeño y Metas de las Políticas Nacionales del año 2014 correspondiente al Sector Energía y Minas   | 21/01/2014 |
